

This is what we were doing on the Laptop computers at Cody:

Logon as Administrator/Local to this computer

- Disable HP Security Credit Manager
- Go to Start
- All Programs
- HP Protect Tools Security Manager
- Click Credential Manager
- My Identity
- Login
- Local Administrator
- Go to Settings
- Uncheck all Boxes
- Close All windows that are open

Go to start -- Go to Run

- Type in: [\\casper\all](#)
- Go to 6715 Updates
- Run: Video update sp36651 (answer no to reboot)
- Then run: WINDVD Install (Not the update) -- (answer no to reboot)

Go Back to [\\casper\all](#)

- Go to Clicker Folder and open
- Run both programs (CPS.5.01.1061.0 then CPS.for.PowerPoint.5.10.0035)
- Copy Training Materials Folder to default local user desktop

Go back to 6715 Updates

- Make sure you Plug in power cord
- Run Bios Update
- Reboot
- Then log in as yourself to see if the Training Materials are on the Desktop

After you are done put a small Black Dot in the top right hand corner of the Name Label

Ex. COD LAB 6715 01

This will signify that the 11-07 update is completed.
